Summary risk indicator

According to regulatory requirements (PRIIPs, Regulation (EU) No. 1286/2014) a new indicator is used when determining and presenting risk indicators of the funds managed by DSK Asset Management - "Summary risk indicator" (SRI - summary risk indicator, on a scale from 1-low to 7-high). It is determined on the basis of historical data from the fund's activity, and in the absence of sufficient history - on the basis of a suitable reference indicator or substitute, considering the market risk according to the fund's investment horizon, taking into account the credit risk, i.e. the credit quality of the instruments in which the fund invests. Investment strategy

A conservatively managed portfolio of investment-grade debt instruments with limited exposure to equity financial instruments (up to 20% of assets). The Fund's investment strategy provides for the realization of current income primarily from debt securities and other fixed income debt instruments and to a lesser extent capital gains and dividend income from equity financial instruments. To achieve the investment objectives, a strategy of active management of its portfolio of financial instruments and cash will be applied. Detailed information on the instruments that may be included in the Fund's portfolio and its investment strategy can be found in the Fund's Rules.

As of 07/09/2023, the Fund's Rules, name, investment objectives, distribution fees, risk profile, etc. are changed.
