Summary risk indicator

According to regulatory requirements (PRIIPs, Regulation (EU) No. 1286/2014) a new indicator is used when determining and presenting risk indicators of the funds managed by DSK Asset Management - "Summary risk indicator" (SRI - summary risk indicator, on a scale from 1-low to 7-high). It is determined on the basis of historical data from the fund's activity, and in the absence of sufficient history - on the basis of a suitable reference indicator or substitute, considering the market risk according to the fund's investment horizon, taking into account the credit risk, i.e. the credit quality of the instruments in which the fund invests.
