Investment strategy

The investment strategy of DSK Standard envisages reception of current incomes from debt securities and other financial instruments, as well as active management of its portfolio of financial instruments and monetary resources. The general goals of the Fund are increase of the value of unitholders' investments by generating the maximum possible income while taking up low risk, as well as to ensure maximal liquidity of the investors. The Fund invests predominantly in high-quality debt securities and fixed-income instruments. DSK Standard does not have a benchmark to compare profitability against. Detailed information about the instruments that can be included in the Fund's portfolio and its investment strategy can be found in Art. 6a - art. 9 of the Fund Rules.

Liquidity

At a request for redemption, the customer receives the amount corresponding to the declared in the order amount after its registration with Central Depository, which is usually done by the end of the business day following the day of accepting the order. Orders can be submitted every working day until 5 p.m.;
The investor may place a redemption order in any of DSK Bank offices where the Fund is distributed, regardless which office he has purchased the units at.

Profile

DSK Standard has been designed for investors, who:

- prefer an investment with small changes in profitability (low risk) and high liquidity;
- want to diversify the risk of their own portfolio;
- want to have their capital managed by professionals on the financial markets;
- are seeking to increase the return of their free cash in medium term.

Historical performance
