Investment strategy

The Fund's investment strategy envisages to generate income from debt securities and other financial instruments. The main investment goals are to increase the value of investments of unit-holders by realizing the maximum possible income while taking low risk, as well as providing maximum liquidity for investors. The fund invests mainly in high-quality debt securities and fixed income instruments, it is actively managed and has no benchmark to compare its results with. Detailed information on the financial instruments that can be included in the Fund's portfolio can be found in the Rules and the Prospectus.

Recommended investment horizon

medium term

Profile

DSK Standard has been designed for investors, who:

- prefer an investment with small changes in profitability (low risk) and high liquidity;
- want to diversify the risk of their own portfolio;
- want to have their capital managed by professionals on the financial markets;
- are seeking to increase the return of their free cash in medium term.

This newsletter is a marketing material and it is for informational purposes only. It is not an investment advice, investment recommendation or investment research. The information in the newsletter is valid as of the date of publication and may change in the future. The value of the fund's units and the investment income may decrease, profit is not guaranteed and investors take the risk of not recovering their investment. Please, read the Prospectus and the the main information document before the final investment decision, which are in Bulgarian and are available on the website of DSK Asset Management AD (dskam.bg). Upon request they can be received free of charge at the office of the Company or at the offices of DSK Bank, that are points of funds' distribution, every working day within their working hours.
